

ABMS[®] Quality Improvement in Practice

Essential tools and training to improve the quality of patient care in your practice

- Curriculum combines quality improvement techniques and practice-based improvement activities
- Awards 20 AMA PRA Category I credits for practicing physicians
- Counts toward ABMS Maintenance of Certification[®] (based on each ABMS Specialty Board's requirements)
- Web-based curriculum with improvement activities for all disciplines and practices

ABMS Quality Improvement in Practice is a self-paced, Web-based program that teaches quality improvement (QI) tools and techniques, and provides practical opportunities to develop and implement improvement activities in your practice setting. The course is worth 20 AMA PRA Category I credits, counts toward ABMS Maintenance of Certification[®], and may satisfy state medical board, insurance panel or institution's requirements for practice improvement.

By taking this course, you will take an important step in acquiring the knowledge and skills to assess the safety of patient care, and to make that care safer.

Learn QI tools and techniques and apply them in practice with these modules:

Quality improvement fundamentals	Improvement activities - complete one
<p>Tools and resources to learn and apply QI methods to improve clinical performance:</p> <ul style="list-style-type: none">• Planning tools• Assessment tools• Evaluation tools <p>Includes pre- and post-knowledge self-assessments</p>	<p>Apply to any discipline or setting:</p> <ul style="list-style-type: none">• Hand Hygiene• Medication Lists• Allergy Lists• Critical Test Results• Correct Person/ Site• Safer Prescriptions• Discharge Communication <p>Case simulations available for non-practicing physicians</p>
