HHS Domains and Principles

National Quality Strategy

Strategic Domains

Principles

- » Patient-centeredness and family engagement
- » Quality care for patients of all ages, populations, service locations, & sources of coverage
- » Elimination of disparities
- » Alignment of public and private sectors

HHS 2011 National Quality Strategy

Six National Priorities

1. **SAFE** - Make care safer by reducing harm caused by delivery of care
2. **PATIENT-CENTERED** - Ensure that individuals and families are engaged as partners in their care
3. **INTEGRATED** - Promote effective communication and coordination of care
4. **EFFECTIVE** - Promote effective prevention and treatment practices for leading causes of mortality, starting with cardiovascular disease
5. **PREVENTIVE** - Work with communities to promote wide use of best practices to enable healthy living
6. **EFFICIENT** - Make quality care more affordable for individuals, families, employers, and governments by developing and spreading new health care delivery models

Delivery and Payment Transformation

Current State

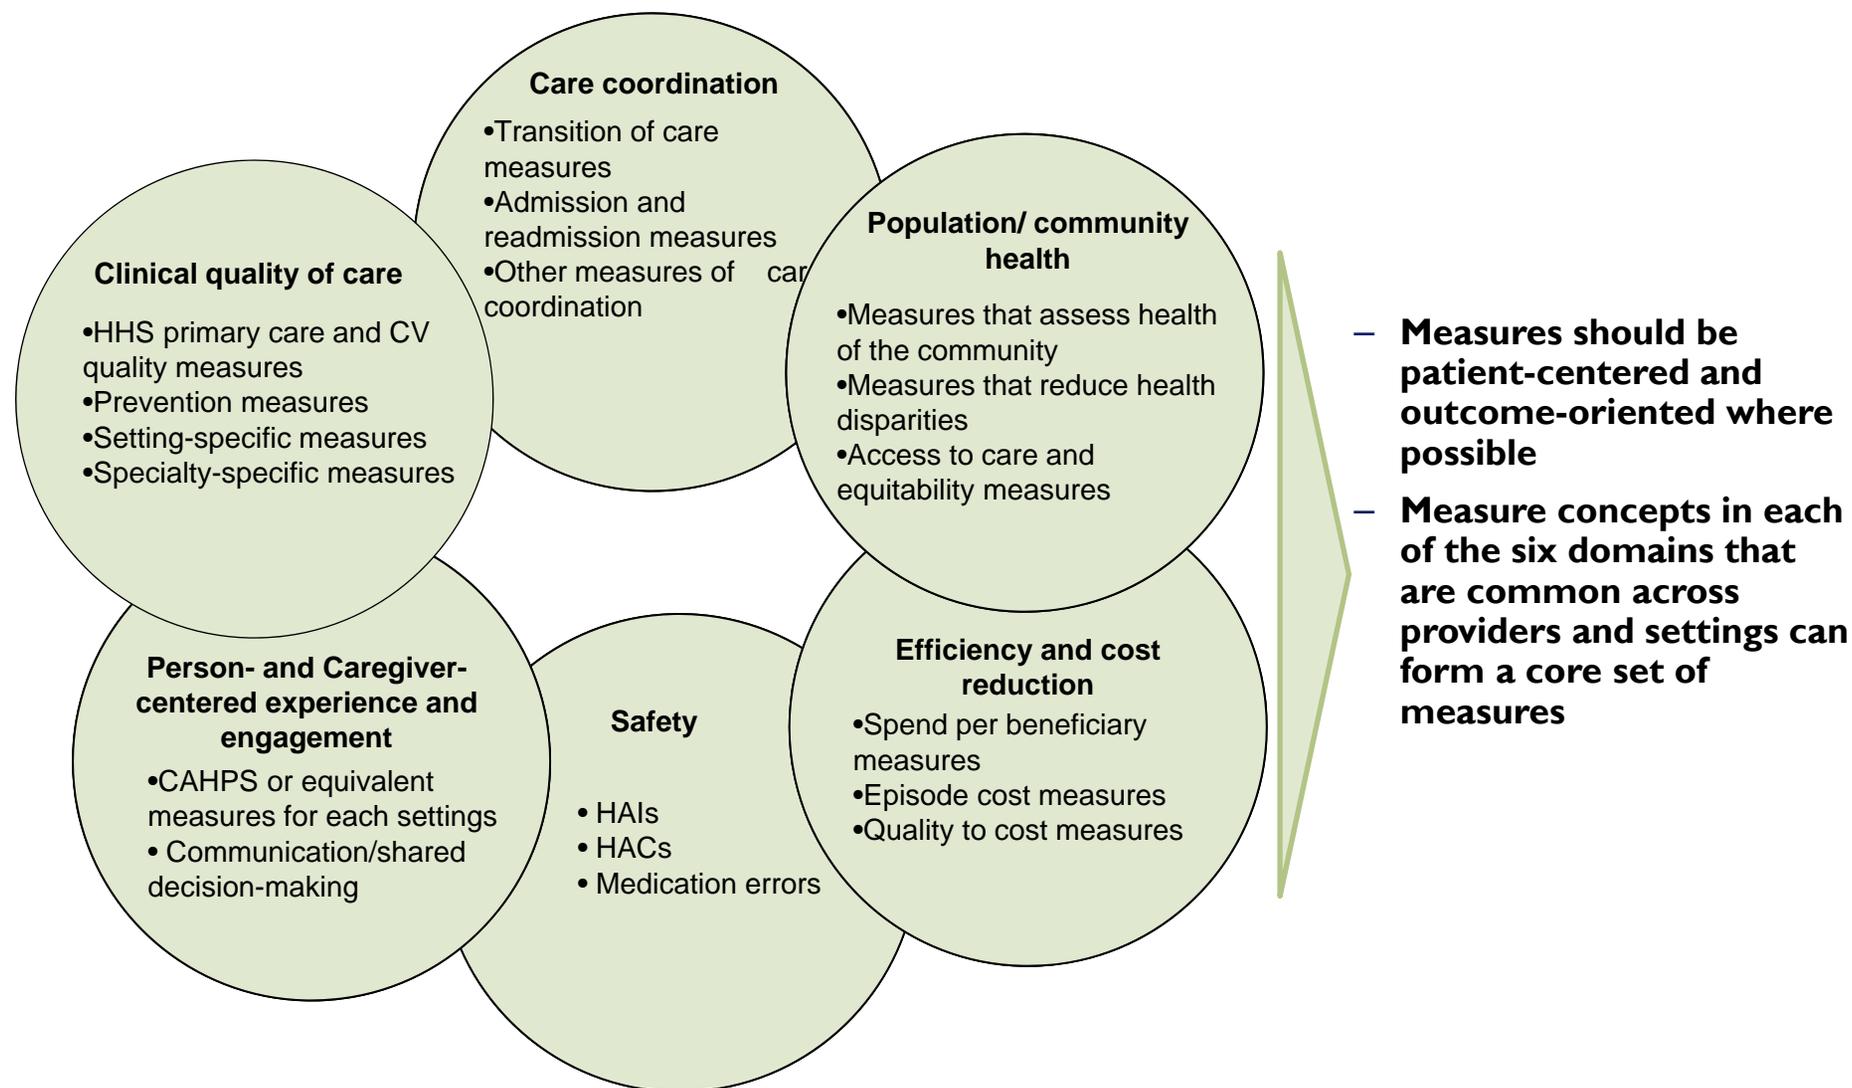

- » Producer Centered
- » Unsustainable
- » Fragmented Care
- » FFS Payment

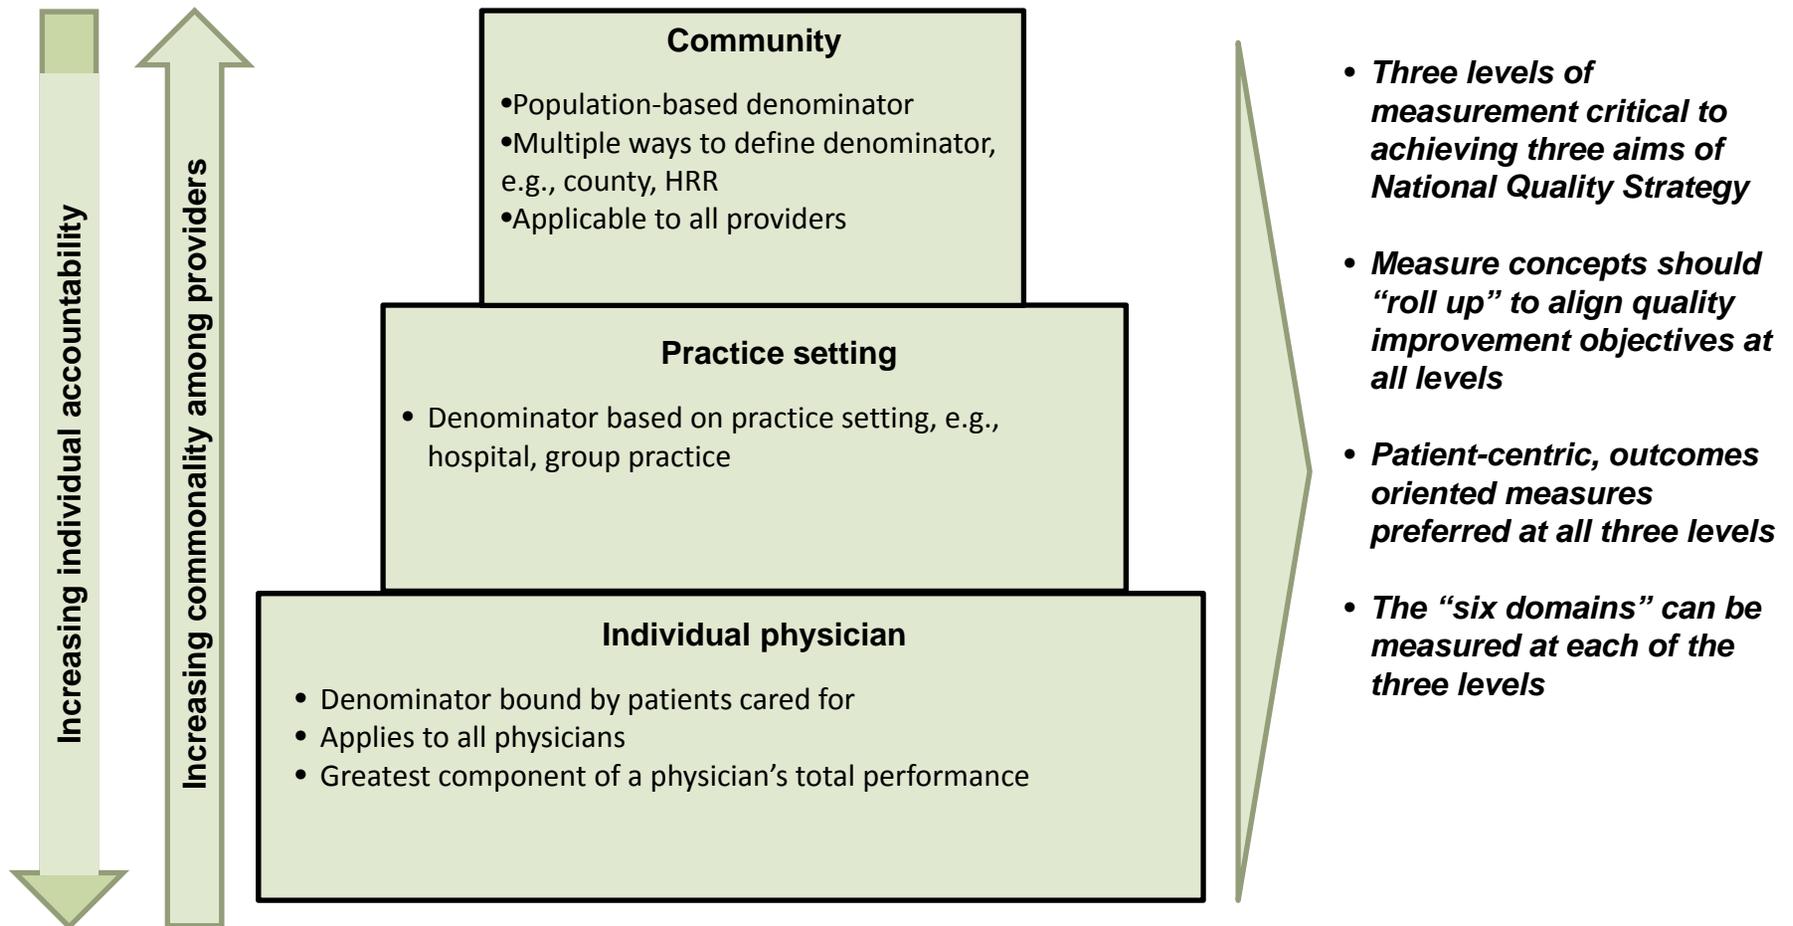

Future State

- » People-Centered
- » Outcomes driven
- » Sustainable
- » Coordinated Care
- » Payment Systems
 - VBP
 - ACO/Shared Savings
 - Care Management Fees
 - Data Transparency

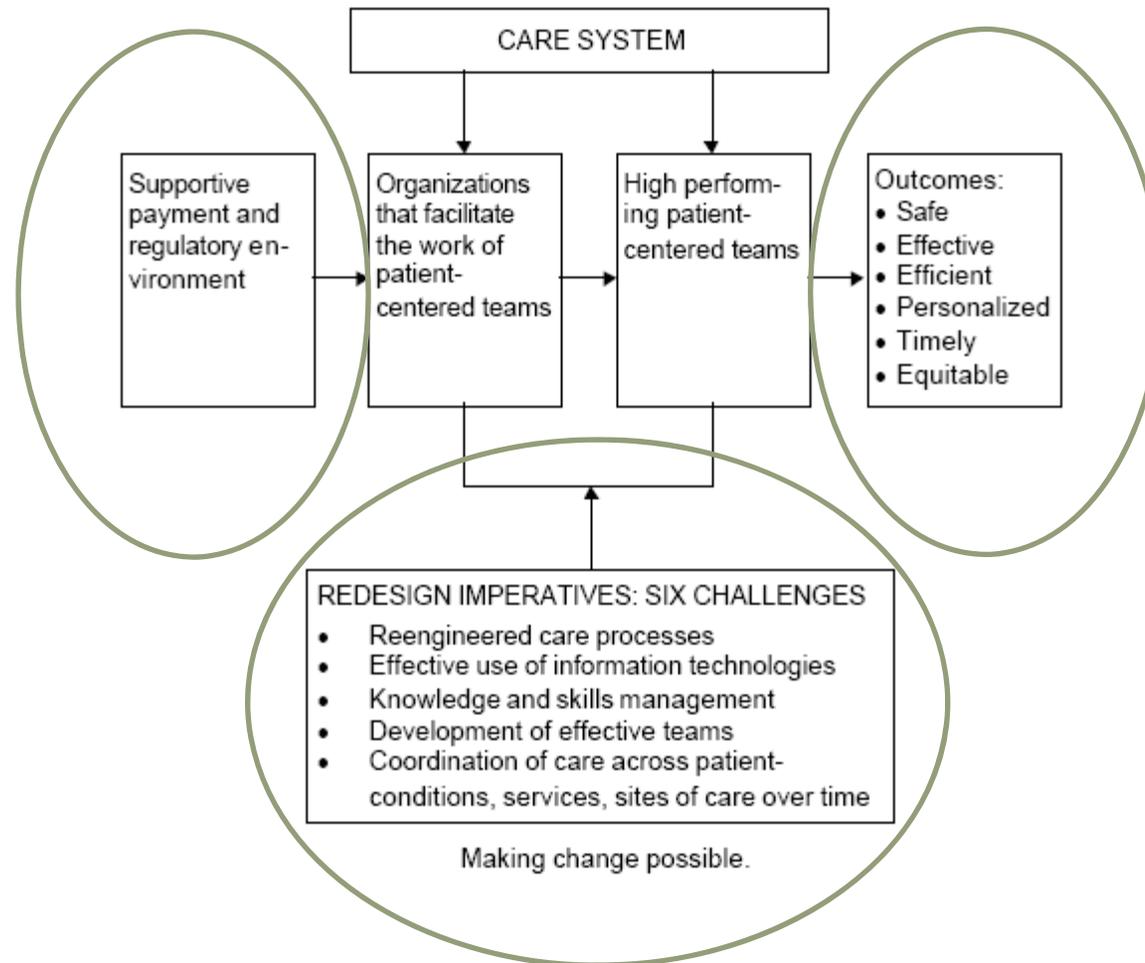

CMS framework for measurement maps to the six national priorities
