Introduction

The American Board of Medical Specialties (ABMS) promotes safe, quality patient health care by elevating the discipline of specialty medicine through board certification. The *ABMS Board Certification Report* is an educational and public service resource offering information about board certification and the physicians and medical specialists (known as diplomates) of the ABMS Member Boards.

About this Report

The *ABMS Board Certification Report* for 2020–2021 provides a summary of key discoveries from the ABMS Board Certification Database and other information provided by the 24 ABMS Member Boards. In aggregate, this report offers a snapshot as of June 30, 2021, including:

- The official list of the specialty and subspecialty certificates approved by ABMS for issue by the ABMS Member Boards.*
- Basic requirements physicians and medical specialists must meet for initial certification and continuing certification.
- The number of new specialty and subspecialty certificates issued in the last 10 years.
- Distribution of board certified diplomates by ABMS Member Board, specialty, and state.

The ABMS Board Certification Database is a primary source for professional certification verification. Data for verifying an ABMS Member Board diplomate's board certification are made accessible through ABMS [public resources](#) and [professional services](#).

*Prior publications containing this information include *ABMS Certificate Statistics* (2006–2012); *ABMS Annual Report and Reference Handbook* (1980–2005); and *American Board of Medical Specialties Annual Report* (1973–1979), all published by ABMS.

Visit the [ABMS Board Certification Report page](#) on the ABMS website for additional information and previous reports.

ABMS Board Certified Diplomates: A Population Overview

The 2020–2021 *ABMS Board Certification Report* reflects a growing population of board certified physicians and medical specialists (also known as diplomates) who use board certification to demonstrate their specialty expertise and continued commitment to provide safe, high-quality, and effective care.

The report shows that as of June 30, 2021 there were 949,928 individuals (see [Table 3C](#)) with an active board certification in one or more of the 40 specialties and 88 subspecialties approved by ABMS (see [Table 1A](#) and [Table 1B](#)). Figure 1 shows the total number of board certified diplomates per ABMS Member Board. The numbers in the table represent distinct counts. A diplomate is counted once per Member Board.

Geographic Distribution of ABMS Member Board Diplomates

Geographic distribution of the ABMS Member Board diplomates was done using data from the ABMS Board Certification Database, along with United States Census Bureau's American Community Survey (2019) data for population estimates.

The state totals as of June 30, 2021 in [Table 3C](#) provide information about the distribution of diplomates by Member Board and state. Figure 2 shows the diplomate distribution per 10,000 at the state level.

Figure 2: ABMS Member Board Certified Diplomates per 10,000 Population by State

State Name	State Code	Physicians per 10,000 Population
Massachusetts	MA	45.31
Maryland	MD	40.57
Connecticut	CT	39.60

Age and Gender Breakdown

The age and gender breakdown of the board certified diplomate population shows that the younger age groups are trending toward a more even gender distribution than the older age groups. Overall, 32.7% of ABMS Member Board certified diplomates are women, and 61.4% are men (5.9% unknown). Currently, the median age of an ABMS board certified diplomates is 52 and the mean age is 54.5.

Figure 3: Distribution of ABMS Member Board Diplomates Across Gender and Age Groups

Total Member Board Diplomate Population = 949,928 as of June 30, 2021

Age Group	Women Diplomates		Men Diplomates		Gender Unknown	
	Counts	Percentage	Counts	Percentage	Counts	Percentage
Total	310,739	32.7%	583,195	61.4%	55,994	5.9%
Below 35	27,080	49.1%	24,128	43.8%	3,936	7.1%
35-44	99,034	44.3%	101,317	45.4%	23,005	10.3%

55-64	57,125	31.0%	120,920	65.6%	6,320	3.4%
64-75	32,757	22.0%	114,382	76.9%	1,677	1.1%
75 and above	12,533	10.2%	108,295	88.5%	1,579	1.3%
Age Unknown	668	10.3%	4,065	62.8%	1,740	26.9%

Certifications Awarded

ABMS Member Boards awarded 23,694 new specialty certificates (see [Table 3A](#)) and 11,838 new subspecialty certificates (see [Table 3B](#)) to physicians and medical specialists during 2020. In looking at the number of active certifications held, many ABMS Member Board diplomates choose to maintain more than one certification to further demonstrate additional specialized medical expertise. Figure 4 shows that about 25% of ABMS Member Board diplomates have at least two active certifications.

Figure 4: ABMS Member Board Diplomates with Multiple Active Certificates

Number of Certificates	Number of Diplomates	Percentage of Total Diplomates
2	208,242	21.92%
3	33,801	3.56%
4	3,206	0.34%
5	200	0.021%
6	29	0.003%
7	7	0.001%

In 2020 ABMS Member Boards awarded
23,694
new specialty certificates and
11,839
new subspecialty certificates

Certifications Awarded *Continued*

There are 36,306 diplomates cross-certified by more than one ABMS Member Board. Figure 5 shows the number and percentage of diplomates within each board that are cross-certified.

Figure 5: ABMS Member Board Diplomates Certified by More than One ABMS Board

American Board of	Diplomate Counts	Percentage of Cross-Certified Diplomates per Board
Anesthesiology	1,879	3.3%
Allergy and Immunology	3,910	64.6%
Colon and Rectal Surgery	1,849	75.6%
Dermatology	942	5.9%
Emergency Medicine	2,258	5.6%
Family Medicine	2,304	2.4%
Internal Medicine	14,691	5.8%
Medical Genetics and Genomics	1,080	40.6%
Nuclear Medicine	3,008	69.0%
Neurological Surgery	57	0.8%
Obstetrics and Gynecology	624	1.2%
Otolaryngology – Head and Neck Surgery	384	2.5%
Ophthalmology	302	1.2%
Orthopaedic Surgery	88	0.3%
Pediatrics	11,801	10.6%
Pathology	1,169	3.7%
Plastic Surgery	1,635	19.2%
Preventive Medicine	7,280	53.5%
Physical Medicine and Rehabilitation	407	3.4%
Psychiatry and Neurology	4,046	5.3%
Radiology	3,346	5.4%
Surgery	6,716	15.5%
Thoracic Surgery	3,263	57.3%
Urology	80	0.6%

In reviewing the number of new specialty certificates issued (see [Table 3A](#)) and new subspecialty certificates issued during the past 10 years (see [Table 3B](#)), Figure 6 identifies two specialty and subspecialty certificates that have the highest increase over 10 years. The specialties of Internal Medicine and Family Medicine saw an increase of 42% and 35% respectively. The Sports Medicine subspecialty issued by the American Board of Family Medicine had a 44% increase in 10 years. Certificates awarded in the subspecialty of Endocrinology, Diabetes and Metabolism from the American Board of Internal Medicine, also saw an increase in the number of certificates awarded.

Figure 6: Specialty and Subspecialty Certifications with Consistent Increase During the Last 10 Years

Certificate	Awarded by the American Board of	2011 Total	2020 Total	Percent Increase in Number of New Certificates Issued
Family Medicine (specialty)	Family Medicine	2,875	3,888	36%
Internal Medicine (specialty)	Internal Medicine	6,735	9,057	34%
Sports Medicine (subspecialty)	Family Medicine	130	188	44%
Endocrinology, Diabetes and Metabolism (subspecialty)	Internal Medicine	283	318	12%

Continuing Certification

The ABMS Board Certification Database shows that as of June 30, 2021, there were 657,814 diplomates participating in continuing certification. Continuing certification (formerly known as Maintenance of Certification (MOC)) is the ongoing process of board certification that simultaneously supports diplomates in keeping their knowledge and skills current while validating their increasing expertise in a specialty. The process has developed during the last 20 years. Initial certification is the entry point for diplomates to participate in continuing professional development through focused, relevant, and accessible activities and assessments (see [Table 2D](#)). Board certified diplomates are required to participate in ongoing activities to maintain certification. Some do not however, because the requirement was not in place when they were first certified. The Member Boards strongly encourage these individuals to participate voluntarily. Figure 7 shows the increase of the number of ABMS Member Board diplomates participating in continuing certification.

More than
650,000
board certified diplomates

certification

Figure 7: ABMS Member Board Diplomates Participating in Continuing Certification

Year	Total Diplomat Population	Total Diplomates Participating in Continuing Certification	Percentage of Diplomat Population Participating in Continuing Certification
2016	868,952	524,079	60.31%
2017	888,723	551,694	62.08%
2018	882,531	578,780	65.58%
2019	905,137	591,419	65.34%
2020	923,132	613,731	65.48%
2021	949,928	657,814	69.25%

The Importance and Value of Board Certification

The importance and value of ABMS board certification is that it represents an individual's advanced knowledge, training, and skills in a particular area of medicine while providing a trusted credential patients rely on to help identify qualified specialists. Through board certification, specialists demonstrate their lifelong commitment to professionalism and continuous learning, toward the ultimate goal of providing quality patient care.

The 24 ABMS Member Boards that oversee board certification are independent organizations entrusted to evaluate candidates and grant board certification to those who complete requirements including medical school graduation, residency/fellowship training, obtaining a state medical license, and passing the board examination process. Board certified specialists, also known as diplomates, then follow a career-long process of continuing certification that simultaneously supports them in keeping their knowledge and skills current while validating their advancing expertise in a specialty or subspecialty.

The process for continuing certification includes a more frequent, formative evaluation process that is grounded in assessment. It is structured to support diplomates through a progression of benchmarking their knowledge and skills and identifying gaps. This inspires more focused learning and maximizes the time diplomates invest in keeping their knowledge and certification up to date. Diplomates participating in continuing certification bring the highest standard of specialty care to their patients and the hospitals and health systems where they work. In turn, patients and health care organizations who choose ABMS board certified specialists can be assured that they are skilled and knowledgeable, maintain their specialty expertise, and meet a higher standard of care established by the profession.

ABMS and its Member Boards also remain engaged in multi-stakeholder collaboration with residents, diplomates, hospitals, and professional and specialty societies to explore ways to further support diplomate professional development and promote learning. Using all this input, and with consideration of ways to foster, cultivate, and preserve a culture of diversity, equity, and inclusion, the boards are enhancing continuing certification by:

- Enabling better and more frequent assessments that offer convenience while maintaining a rigorous evaluation of diplomate knowledge
- Using the formative aspects of assessment to inform the summative decision on certification status
- Bringing assessment and other program activities to where diplomates practice
- Offering pathways to retain or regain a certificate
- Enhancing consistency, transparency, and accountability

ABMS Programs and Services

ABMS is aiming higher by enhancing the importance and value of board certification with innovative programs and services that help ABMS Member Board diplomates demonstrate their competence and professionalism, support organizations in achieving their quality improvement and safety goals, and offer assurance to the public that they are being cared for by specialists committed to their health and well-being.

The [ABMS Portfolio Program™](#) helps connect health care organizations' quality and safety goals with the aim of continuing certification. It operates through sponsor organizations and with ABMS Member Boards to award continuing certification credit

for diplomates' quality improvement work. The program encourages collaboration between departments and across specialties to introduce and sustain processes and infrastructure that have an impact on the patients and communities they serve. More than 30,000 diplomates and 90+ health care organizations are involved.

[CertLink®](#) uses smart technology to combine longitudinal assessment and personalized learning into one process. The platform, which supports many types of online assessment and learning activities, is used by several ABMS Member Boards to create self-paced programs, customizable to diplomates' practice and interests. With CertLink, the Member Boards develop, manage, and conveniently deliver multiple-choice and article-based assessments to support completion of continuing certification and continuing medical education (CME) requirements. More than 2 million questions have been answered through CertLink. Diplomates using CertLink give the platform a 90% satisfaction rating.

[ABMS Solutions™](#) oversees the licensing of the CertiFACTS Online® product set for Primary Source Verification (PSV) of a diplomate's board certification status. Professionals can access board certification information that is updated daily with data provided by the 24 certifying ABMS Member Boards. Board certification data from the ABMS database meet all PSV requirements as set by The Joint Commission, the National Committee for Quality Assurance (NCQA), and URAC for the secure and timely reporting of credentialing information.

The [ABMS Continuing Certification Directory®](#) provides ABMS board certified diplomates an online collection of practice-relevant, accredited continuing medical education (CME) activities for continuing certification. The

competency-based activities are routinely added following review and approval by one or more of the ABMS Member Boards. Activities are accredited for CME through the Accreditation Council for Continuing Medical Education (ACCME) system. More than 4,000 activities are available from 65+ CME providers.

ABMS VISITING SCHOLARS PROGRAM™

The [ABMS Visiting Scholars Program™](#) positions early-career physicians, medical specialists, and research professionals as active contributors to, and future leaders in, health care. This one-year, part-time program facilitates research exploring

best practices and innovative approaches that address priorities for the certification community: learning and assessment, physician performance, continuing professional development, quality improvement, and patient safety.

[Certification Matters™](#) is a free resource for consumers to learn about ABMS board certification and its importance to quality care. Visitors can use the search tool to check if a specialist is board certified by any of the 24 ABMS Member Boards.

Table 1A: Approved Specialty Certificates by ABMS Member Board

A specialty certificate is first awarded by an ABMS Member Board to candidates who meet the requirements for certification in a specified field of medical practice. This table lists the specialty certificates currently approved for issue by the boards. Footnotes can be found on pages 14 and 15. Visit the [ABMS website](#) for the most current list of certificates offered and descriptions of each specialty.

Footnotes to Table 1A and 1B

* ABMS board certification includes continuous assessment and learning activities that help physicians evaluate and refine their knowledge, judgment, skills, and service to patients. Since the program requires ongoing professional activity, particular requirements must be completed before a physician receives an updated certificate. See Table 2D for additional information.

† Certificate issued prior to 1972 when ABMS subspecialty recognition procedures were established.

†† Certificates not yet issued.

(1) First year certificate issued by the Member Board.

(2) Founding member of ABMS.

(3) In 2018, the American Board of Genetics and Genomics merged two of its certificates, Clinical Cytogenetics and Genomics, and Clinical Molecular Genetics and Genomics into Laboratory Genetics and Genomics. After July 2017 no new trainees may begin training solely in either of the individual areas.

(4) American Board of Medical Genetics and Genomics certificates established prior to becoming an ABMS Member Board.

(5) In 2018, the ABMS Board of Directors approved a name change for the American Board of Otolaryngology to the American Board of Otolaryngology – Head and Neck Surgery.

(6) In 2017, the American Board of Radiology created a new primary certificate for Interventional Radiology and Diagnostic Radiology. This certificate combines two previous certificates: Diagnostic Radiology and Vascular and Interventional Radiology.

(7) For physicians certified by the American Board of Family Medicine entering the board's continuing certification (formerly Maintenance of Certification (MOC)) program in 2012 or later, and for physicians initially certified by the American Board of Internal Medicine, the American Board of Medical Genetics and Genomics, the American Board of Pathology, the American Board of Pediatrics, the American Board of Psychiatry and Neurology, the American Board of Radiology, or the American Board of Surgery, maintaining certification is contingent upon their meeting the requirements for the specific board's continuing certification program, and therefore no certification end date is provided. To maintain certification from their specialty board, physicians must successfully complete specialty-specific requirements throughout their ongoing continuing certification cycles.

(8) In 2021, the American Board of Emergency Medicine began issuing time-limited certificates in Emergency Medicine, Anesthesiology Critical Care Medicine, and Pain Medicine with a duration of five years. Time-limited certificates issued prior to 2021 had a duration of 10 years.

(9) The following certificates were issued only during years indicated below.

American Board of	Certificate Name	Years Issued
Allergy and Immunology	Clinical and Laboratory Immunology	1994–2003
Colon and Rectal Surgery	Anorectal Surgery Proctology	1949–1954 1940–1956

	Nuclear Medical Physics	Medical Nuclear Physics	1949–2010
	Radiation Oncology	Therapeutic Radiology	1934–1986
	Therapeutic Medical Physics	Therapeutic Radiological Physics	1973–2010
Thoracic Surgery	Thoracic and Cardiac Surgery	Thoracic Surgery	1948–1970

Table IC: Approved Focused Practice Designations by ABMS Member Board

The focused practice designation, approved by ABMS in March 2017, recognizes the value that physicians who focus some or all of their practice within a specific area of a specialty and/or subspecialty can provide to improve health care. It reflects an evolution of practice that occurs following initial certification and is relevant to continuing certification. For example, a physician may focus his or her practice on work in the hospital setting or concentrate on specific patient populations, conditions, and/or specialized procedures that emerge as medicine evolves.

[Focused practice designation](#) enables the ABMS Member Boards to set standards for, assess, and acknowledge additional expertise that physicians gain through clinical experience. [Contact the Member Board](#) to learn more.

American Board of	Focused Practice Designation	Active Certification Requirement	Year Approved by ABMS	First Issued	Duration Years (may be tied to duration of associated certificate)
Emergency Medicine	Advanced Emergency Medicine Ultrasonography	Emergency Medicine	2018	††	5
Family Medicine	Hospital Medicine ⁽¹⁾	Family Medicine	2017	2010	Continuing
Internal Medicine	Hospital Medicine ⁽¹⁾	Internal Medicine	2017	2010	Continuing
Neurological Surgery	Central Nervous System Endovascular Surgery	Neurological Surgery	2017	2020	10
	Neurological Critical Care	Neurological Surgery	2018	††	10
	Pediatric Neurological Surgery	Neurological Surgery	2017	2018	10
Obstetrics and Gynecology	Minimally Invasive Gynecologic Surgery	Obstetrics and Gynecology	2019	††	Continuing
	Pediatric and Adolescent Gynecology	Obstetrics and Gynecology	2017	2018	Continuing
Pathology	Clinical Chemistry	Pathology—Anatomic/Pathology—Clinical OR Pathology—Clinical	2017	††	Continuing
	Clinical Microbiology	Pathology—Anatomic/Pathology—Clinical OR Pathology—Clinical	2017	2020	Continuing
Psychiatry and Neurology	Central Nervous System Endovascular Surgery	Neurology	2018	††	Continuing
Radiology	Central Nervous System Endovascular Surgery	Diagnostic Radiology OR Interventional and Diagnostic Radiology, and Neuroradiology	2018	††	Continuing
Surgery	Metabolic Bariatric Surgery	Surgery	2019	††	Continuing

†† Designation not yet issued.

(1) The Hospital Medicine designation was originally approved as a pilot program in 2010. It was formally approved by ABMS in 2017.

Table 2A: ABMS Member Board Requirements for Initial Certification in a Specialty

Specialty certification is first awarded to candidates who meet the requirements in a specified field of medical practice. This table identifies the requirements by Member Board for initial certification in a specialty. [Contact the Member Board](#) to confirm all requirements. Footnotes can be found on page 19.

Specialty Certificate	Issuing Board: American Board of	Training Requirement ⁽¹⁾ (All boards require attestation by program director)		Other Training Accepted ⁽²⁾	Additional Requirements <i>All boards require current and unrestricted medical license</i>	Board Eligibility ⁽³⁾		Assessment	
		Prerequisite Requirement	Specialty Training Requirement			Board Eligible Period (plus additional practice requirement)	Transition Date	Traditional Secure Exam (computer-based)	Practical/Oral
Aerospace Medicine	Preventive Medicine	1 year general internship	2 years	RCPSC		7 years	*	x	
Allergy and Immunology	Allergy and Immunology	3 years training in Internal Medicine or Pediatrics	2 years	RCPSC	Certificate in Internal Medicine or Pediatrics	7 years	*	x	
Anesthesiology	Anesthesiology	1 year general internship	3 years	International		7 years	*	x	x
Clinical Biochemical Genetics	Medical Genetics and Genomics		2 years	CCMG	Patient log, recommendation letters	6 years	*	2 exams: general, specialty-specific

(1) Prerequisite Requirement is defined as graduate medical education that precedes training in the residency program for a specialty. Specialty Training Requirement is defined as the time spent in the residency program for the specialty. All training must be accredited by the Accreditation Council for Graduate Medical Education (ACGME), the accrediting body for postgraduate medical training programs in the United States.

(2) The Royal College of Physicians and Surgeons of Canada (RCPSC) is the accrediting body for postgraduate medical training programs in Canada. The Canadian College of Medical Genetics (CCMG) is the accrediting body for postgraduate genetics training programs in Canada. The American Osteopathic Association (AOA) is the accrediting body for osteopathic postgraduate medical training in the United States. International indicates training the physicians may have completed outside of the United States or Canada. Boards may accept some or all of RCPSC, AOA, or international training. Contact the individual boards for details.

(3) The ABMS Board Eligibility policy, effective January 1, 2012, limits the period of time that may elapse between a specialist's completion of training and achievement of initial certification in a specialty. The Member Boards established transition dates for physician candidates who had completed training, but not yet achieved initial certification in a specialty as of the

ABMS Board Eligibility Policy's effective date. This period can be three to seven years following the successful completion of accredited training, plus time (if any) in practice as required by the board for admissibility to the certifying examination. Member Boards marked with an asterisk (*) either had board eligibility policies in place prior to the effective date of the ABMS policy or their transition dates have passed. Their board eligible periods align with the principles of the ABMS policy.

(4) American Board of Colon and Rectal Surgery requires candidates to pass the traditional examination given by the American Board of Surgery. Candidates have seven years to complete both the traditional and oral examinations after application approval.

(5) American Board of Orthopaedic Surgery candidates have five years to achieve certification after passing the traditional examination.

(6) American Board of Thoracic Surgery will accept a Vascular Surgery residency in lieu of a General Surgery residency as long as the Vascular Surgery training leads to primary certification by the American Board of Surgery.

Table 2B: ABMS Member Board Requirements for Initial Certification in a Subspecialty

This table identifies the requirements by Member Board for initial certification in a subspecialty. Some subspecialty certificates are offered by Member Boards to physicians who possess an active specialty certificate from another Member Board. Please refer to the Underlying Certification Requirement column. [Contact the Member Board](#) to confirm all requirements. Footnotes can be found on page 28.

Subspecialty Certificate	Issuing Board(s): American Board of	Underlying Certification Requirement for Subspecialty Eligibility	Training Requirement ⁽¹⁾	Additional Requirements	Board Eligibility ⁽²⁾		Assessment	
			All boards require attestation by program director	All boards require current and unrestricted license	Board Eligible period (plus additional practice requirement)	Transition Date	Traditional Secure Exam (computer-based)	Practical/Oral
Addiction Medicine	Preventive Medicine (ABPM)	Certification from any ABMS Member Board	1 year		7 years	*	x	
Addiction Psychiatry	Psychiatry and Neurology (ABPN)	ABPN Psychiatry certification	1 year		7 years	*	x	
Adolescent Medicine	Family Medicine (ABFM)	ABFM general certification	2 years		7 years	*	x

Subspecialty Certificate	Issuing Board(s): American Board of	Underlying Certification Requirement for Subspecialty Eligibility	Training Requirement ⁽¹⁾	Additional Requirements	Board Eligibility ⁽²⁾		Assessment	
			All boards require attestation by program director	All boards require current and unrestricted license	Board Eligible period (plus additional practice requirement)	Transition Date	Traditional Secure Exam (computer-based)	Practical/Oral
Surgery of the Hand	Orthopaedic Surgery (ABOS) ^(†)	ABOS general certification	1 year	Hospital privileges, patient log, practice requirements	7 (+2) years ⁽⁸⁾	*	x	
	Plastic Surgery (ABPS)	ABPS general certification	1 year	Hospital privileges, practice requirements, case log review with minimums, peer evaluations	7 (+2) years	*	x	
	Surgery (ABS)	ABS certification in Surgery	1 year	Hospital privileges, patient log, practice requirements		*	x	
Surgical Critical Care	Surgery (ABS)	ABS certification in Surgery or Vascular Surgery or certification from any ABMS surgical board or ABEM general certification	1 year	Hospital privileges, patient log, practice requirements	7 years	*	x	
Transplant Hepatology	Internal Medicine (ABIM) ^(†)	ABIM certification in Gastroenterology	1 year	Attestation of ABIM initial certification eligibility criteria by an ABIM certified program director	7 years	*	x	
Undersea and Hyperbaric Medicine	Emergency Medicine (ABEM)	ABEM general certification	1 year		7 years	*	x	
	Preventive Medicine (ABPM) ^(†)	Certification from any ABMS Member Board	1 year		7 years	*	x	
Vascular Neurology	Psychiatry and Neurology (ABPN)	ABPN Neurology or Neurology with Special Qualification in Child Neurology certification	1 year		7 years	*	x	

(†) Some subspecialty certificates are co-sponsored (issued by multiple boards). Member Boards marked with (†) are the ones which administer the examination for that subspecialty certification. See Table 2C for a list of co-sponsored subspecialty certificates.

(1) Training must be accredited by the Accreditation Council for Graduate Medical Education (ACGME), the accrediting body for post-MD or post-DO medical training programs in the United States. Contact the board regarding other credit accepted.

(2) The ABMS Eligibility Policy for Subspecialty Certification, effective January 1, 2018, limits the period of time that may elapse between a specialist's training and achievement of initial certification in a subspecialty. ABMS Member Boards that did not have an existing policy in place have established a transition plan. Member Boards marked with an asterisk (*) had board eligibility policies in place prior to the effective date of the ABMS policy. Their board eligible periods align with the principles of the policy.

(3) ABPath eligibility period starts from the completion of subspecialty training or primary certification, whichever is later.

(4) ABTS requires diplomates to apply within one year of completing training.

(5) ABU requires applicants to complete the examination process within six years with up to three attempts to take the examination.

(6) ABOHNS and ABPS diplomates may be eligible for Micrographic Dermatologic Surgery certification through the ABD upon completion of additional requirements.

(7) Pediatric Dermatology training is accredited by ABD.

(8) ABOS allows a maximum of nine years to complete certification in Surgery of the Hand. This policy also applies to Sports Medicine, pending review by the board.

Table 2C: Examination Administering Board for Certifications Offered by Multiple ABMS Member Boards

A number of subspecialty certificates are currently offered by multiple ABMS Member Boards. This table identifies which board administers the examination. Some subspecialty certificates are offered by Member Boards to physicians who possess an active specialty certificate from another Member Board. Please refer to the Underlying Certification Requirement column in Table 2B.

American Board of	Adolescent Medicine	Brain Injury Medicine	Clinical Informatics	Critical Care Medicine ⁽¹⁾ (Anesthesiology)	Critical Care Medicine ⁽¹⁾ (Internal Medicine)	Dermatopathology	Female Pelvic and Reconstructive Surgery	Geriatric Medicine	Hospice and Palliative Medicine ⁽²⁾	Medical Toxicology	Molecular Genetic Pathology ⁽³⁾	Neurocritical Care	Neuromuscular Medicine	Pain Medicine	Pediatric Emergency Medicine	Sleep Medicine	Sports Medicine	Surgery of the Hand	Transplant Hepatology ⁽⁴⁾	Undersea and Hyperbaric Medicine

X Administering Member Board

• Co-sponsoring Member Boards

(1) Multiple boards offer separate Critical Care Medicine certificates within various fields. See Table 2B for a full listing.

(2) As of 2020, the ABMS Member Boards of Obstetrics and Gynecology, Psychiatry and Neurology, Physical Medicine and Rehabilitation, Radiology, and Surgery no longer are issuing certification in Hospice and Palliative medicine.

(3) This same certification is offered by the American Board of Pathology as Pathology-Molecular Genetic.

(4) This same certification is offered by the American Board of Pediatrics as Pediatric Transplant Hepatology.

Table 2D: ABMS Member Board Requirements for Continuing Certification

This table identifies the requirements by Member Board for maintaining certification in a specialty. The process includes assessment and learning activities that help specialists evaluate and enhance their clinical judgment, procedural skills, and service to patients. Evidence of ongoing professional activity, outlined briefly below, is required. The Member Boards consider specialists' performance on all requirements to determine whether they are continuing to meet the standards for certification. Requirements may differ for a subspecialty certificate. [Contact the Member Board](#) for the most current information. Footnotes can be found on page 32.

American Board of	Professionalism and Professional Standing	Lifelong Learning and Self-Assessment ⁽¹⁾	Assessment of Knowledge, Judgment and Skills				Improvement in Medical Practice	
	All boards require current and unrestricted license*	Continuing Medical Education (CME) ** Requirement (type and frequency varies among the boards)	Innovative Knowledge Assessment			Traditional Secure Exam Option Offered	Type and frequency varies from annual activity to specific time intervals	ABMS Portfolio Program Participation ⁽⁴⁾
			Assessment Type ⁽²⁾	Frequency of Engagement	Features ⁽³⁾			
Allergy and Immunology (ABAI)		CME credits, recent advances articles, patient safety, communication module	Point in time	Semi-annually	Customized to practice, article-based	Re-entry only	Practice assessment/quality improvement, activity, attestation with audit, professional practice activities, registry participation	No
Anesthesiology (ABA)		CME credits, patient safety, MOC assessment recognition, program in collaboration with ACCME's accredited CME System	Longitudinal assessment	Quarterly	Customized to practice, question-based	Re-entry only	Practice assessment/quality improvement, activity, attestation with audit	Yes
Colon and Rectal Surgery (ABCRS)	Chief of staff evaluation and documentation of hospital privileges	CME credits, self-assessment	Longitudinal assessment	Quarterly	Mix of question-based and article-based	No	Participation in a local, regional or national outcomes registry or quality assessment program, attestation with audit, professional practice activities	No
Dermatology (ABD)		CME credits, self-assessment	Longitudinal assessment	Quarterly	Customized to practice, mix of question-based and article-based	Yes	Practice assessment/quality improvement activity, attestation with audit, registry participation	Yes
Emergency Medicine (ABEM)		Literature review, online self-assessment	Point in time	4 modules every 5 years	Clinical-presentation-based	Yes	Quality improvement activity, attestation with audit, registry participation	Yes
Family Medicine (ABFM)		CME credits, knowledge self-assessment activities	Longitudinal assessment	Quarterly	Question-based	Yes	Options include: online performance improvement activity modules; reporting of QI activities from residency practice or clinical service in which resident meaningfully participated; residency participation in PRIME registry with attestation of involvement	Yes
Internal Medicine (ABIM)		Recognized self-evaluation of medical knowledge activities, MOC assessment recognition program in collaboration with ACCME's accredited CME system	Point in time ⁽⁵⁾	Every 2 years	Question-based	Yes	Optional; incentive for participation in approved activities, registry participation	Yes
Medical Genetics and Genomics (ABMGG)	Diplomates with doctoral degrees but not practicing clinical genetics and genomics must either have an individual scientist license or submit a Confidential Attestation of Professional Conduct completed by a peer or supervisor	CME credits, patient safety, recent advances articles, online self-assessment, literature review	Longitudinal assessment	Semi-annually	Customized to practice, mix of question-based and article-based	No	Improvement in Medical Practice module, professional practice activities, registry participation	Yes

Table 2D: ABMS Member Board Requirements for Continuing Certification *(continued)*

Footnotes can be found on page 32.

American Board of	Professionalism and Professional Standing	Lifelong Learning and Self-Assessment ⁽¹⁾	Assessment of Knowledge, Judgment and Skills				Improvement in Medical Practice	
	All boards require current and unrestricted license*	Continuing Medical Education (CME) ** Requirement (type and frequency varies among the boards)	Innovative Knowledge Assessment			Traditional Secure Exam Option Offered	Type and frequency varies from annual activity to specific time intervals	ABMS Portfolio Program Participation ⁽⁴⁾
			Assessment Type ⁽²⁾	Frequency of Engagement	Features ⁽³⁾			
Neurological Surgery (ABNS)	Hospital privileges, chief of staff questionnaire which includes questions on hospital standards for patient safety and improvement in medical practice	CME credits	Point in time	Annually	Customized to practice, question-based	No	Chief of staff questionnaire to confirm regular morbidity and mortality conference attendance	No
Nuclear Medicine (ABNM)		CME credits, self-assessment	Longitudinal assessment	Quarterly	Question-based	Yes	Performance assessments during the cycle, with yearly engagement requirements, attestation with audit	No
Obstetrics and Gynecology (ABOG)	Hospital privileges	Literature review, online self-assessment	Other ⁽⁶⁾	3 times a year	Customized to practice, article-based	Yes	Participation in Improvement in Medical Practice activity, options include: modules, QI and ABMS Portfolio Program, simulation courses, QI publications/posters and research, and registry participation	Yes
Ophthalmology (ABOP)		CME credits, self-assessment, patient safety	Longitudinal assessment	Quarterly	Customized to practice, mix of question-based and article-based	No	Practice improvement activities, including registry-based option	Yes
Orthopaedic Surgery (ABOS)	Professional peer review, hospital admitting and surgical privileges	CME credits, self-assessment	Longitudinal assessment	Annually	Customized to practice, article-based	Yes	Case list review, professional peer review, registry participation	No
Otolaryngology – Head and Neck Surgery (ABOHNS)		CME credits, self-assessment	Longitudinal assessment	Quarterly	Customized to practice, mix of question-based and article-based	Yes	Practice improvement activities, including registry-based option, attestation with audit	Yes
Pathology (ABPath)	Professional peer review	CME credits	Longitudinal assessment	Quarterly	Customized to practice, question-based	Yes	Complete two practice assessment/ quality improvement activity, peer review, attestation with audit, or professional practice activities every two years	Yes
Pediatrics (ABP)		Self-assessment activities, CME for MOC program in collaboration with ACCME	Longitudinal assessment	Quarterly	Customized to practice, mix of question-based and article-based	Yes	Quality improvement activities	Yes
Physical Medicine and Rehabilitation (ABPMR)		CME credits, self-assessment	Longitudinal assessment	Quarterly	Customized to practice, question-based	Yes	Practice assessment/quality improvement, registry participation	Yes
Plastic Surgery (ABPS)	Hospital privileges, peer review, review of advertising material, outpatient facility accreditation	CME credits, patient safety	Longitudinal assessment	Annually	Customized to practice, question-based	Yes	Practice assessment module, registry participation, quality improvement projects, and publications to quality improvement	No

Table 2D: ABMS Member Board Requirements for Continuing Certification *(continued)*

American Board of	Professionalism and Professional Standing	Lifelong Learning and Self-Assessment ⁽¹⁾	Assessment of Knowledge, Judgment and Skills				Improvement in Medical Practice	
	All boards require current and unrestricted license*	Continuing Medical Education (CME) ** Requirement (type and frequency varies among the boards)	Innovative Knowledge Assessment			Traditional Secure Exam Option Offered	Type and frequency varies from annual activity to specific time intervals	ABMS Portfolio Program Participation ⁽⁴⁾
			Assessment Type ⁽²⁾	Frequency of Engagement	Features ⁽³⁾			
Preventive Medicine (ABPM)		CME credits, self-assessment	Longitudinal assessment ⁽⁷⁾	Semi-annually	Question-based	Yes	Practice assessment/quality improvement activity	Yes
Psychiatry and Neurology (ABPN)		CME credits, self-assessment, patient safety	Point in time	Every 3 years	Customized to practice, article-based	Yes	Practice assessment/quality improvement activity, attestation with audit, registry participation	Yes
Radiology (ABR)		CME credits, self-assessment	Longitudinal assessment	Annually	Customized to practice, question-based	Yes	Practice Quality Improvement (PQI) project or participatory activity, attestation with audit, professional practice activities, registry participation	Yes
Surgery (ABS)	Hospital/surgical center privileges; professional references; case log review	CME credits, self-assessment	Point in time ⁽⁸⁾	Every 2 years	Customized to practice, question-based	Re-entry only	Participation in a registry, participation in a hospital or individual quality improvement program, attestation with audit, registry participation	Yes
Thoracic Surgery (ABTS)	Hospital privileges	CME credits, online self-assessment, patient safety	Other ⁽⁹⁾	Every 10 years	Customized to practice, question-based	No	Practice assessment/quality improvement activity, peer evaluations, attestation with audit, registry participation	Yes
Urology (ABU)	Peer review; case for review; professionalism and ethics modules	CME credits, online practice assessment, patient safety	Not offered			Yes ⁽¹⁰⁾	Practice Assessment Protocol (PAP), case log review, attestation with audit, peer review, professional responsibility action review, and surgical complication narrative reviews, registry participation	Yes

* Current and unrestricted medical license must be maintained in the jurisdiction where a specialist chooses to practice. Other requirements listed by board.

** Continuing Medical Education, or CME, consists of educational activities to assess, develop, and increase specialists' knowledge, judgment, skills, and professional performance. CME activities are certified and credit is awarded from one or more of the following credit systems: AMA PRA Category 1; AAFP Prescribed Credit; ACOG Cognates; AOA Category 1A.

(1) Requirements could include practice-relevant CME such as literature reviews, conference participation, online assessment, and/or particular board- or society-developed self-assessment modules. Some Member Boards will waive self-assessment requirements for participation in an innovative knowledge assessment. Contact the Member Board for specific requirements.

(2) Longitudinal assessment involves administering shorter, more continuous assessments of specific content repeatedly over a period of time to reinforce concepts and information. Gaps in knowledge can be addressed by reviewing suggested educational activities such as those available through the ABMS Continuing Certification Directory, practice performance projects such as those available through the ABMS Portfolio Program or other professional development activities. Point-in-time assessments are offered at less frequent intervals, typically during test administration windows of a few weeks on an annual or biennial basis.

(3) Question-based assessment involves the use of multiple-choice questions. Article-based assessment involves reviewing articles with which physicians should be familiar and demonstrating mastery of the material by responding to questions related to the articles. Clinical-presentation-based assessment involves questions related to the assessment, treatment, and follow up for patients presenting with common clinical problems in the specialty. Customized to Practice involves Member Boards allowing physicians the ability to select among topic areas based on practice setting and/or patient mix.

(4) The ABMS Portfolio Program offers an option for organizations to support physician involvement in quality, performance, and process improvement (QI/PI) initiatives at their institution and award physicians Improvement in Medical Practice credit for continuing certification.

(5) Options vary by certificate: yearly question-based format for some subspecialties.

(6) Assessment integrated with Lifelong Learning and Self-Assessment.

(7) Will be implemented in 2021 for Clinical Informatics certificate, 2023 for other certificates.

(8) Formative feedback provided; offer second chance to answer items.

(9) Customized to practice; formative feedback provided; offer second chance to answer items.

(10) Customized to practice with feedback; CME assigned for areas of substandard performance, ABU will offer a Longitudinal Assessment option beginning in 2021.

Table 3A: New Specialty Certificates Issued by ABMS Member Boards 2011–2020

This table shows the comparative degree of activity in specialty certification and the change with time among specialties. The counts also can include certificates which are no longer issued or have been inactive during this time period. “A” indicates the year the certificate was approved by ABMS. See Table 1A for certificate issue date information. Footnotes can be found on page 34.

(1) Due to the transition from the Diagnostic Radiology Oral Exam to the Certifying Exam, only those who took and passed the oral exam were certified in 2014. The first Diagnostic Radiology Certifying Exam was administered in October 2015.

Table 3B: New Subspecialty Certificates Issued by ABMS Member Boards 2011–2020

Examination of this table will show the comparative degree of activity in subspecialty certification and the change with time among subspecialties. The counts can also include certificates which are no longer issued or have been inactive during this time period. "A" indicates the year the certificate was approved by ABMS, but not yet issued. See Table 1B for certificate issue date information. Footnotes for this table can be found on page 39.

(*) Two or more ABMS Member Boards may offer similar subspecialty certificates, using the same or similar title and equivalent standards. See Table 2C for examination administering board information.

(1) Certificate counts listed prior to Member Board certificate sponsorship were transferred from another Member Board.

(2) Certificate no longer issued. Replaced by Interventional Radiology and Diagnostic Radiology primary certificate in 2017.

Table 3C: ABMS Board Certified Diplomates by Member Board and Location

Numbers in this table provide a count of ABMS Member Board certified physicians with an active specialty or subspecialty certificate by location recorded in the ABMS database as of June 30, 2021. Physicians may hold certification in more than one specialty or subspecialty and may be certified by more than one Member Board. The numbers are distinct counts. A physician is counted once per Member Board and once in the grand total. These numbers include certificate holders who are retired and excludes physicians who are known to be deceased.

The Member Boards and Associate Members of ABMS

ABMS works with its Member Boards and Associate Members to improve the quality of graduate medical education, the standards of medical practice, and the physician certification process. Contact information for the ABMS Member Boards can be found on page 62.

ABMS MEMBER BOARDS

Includes the year approved as an ABMS Member Board

- 1933** Founding Member Boards:
- American Board of Dermatology
 - American Board of Obstetrics and Gynecology
 - American Board of Ophthalmology
 - American Board of Otolaryngology – Head and Neck Surgery
- 1935** American Board of Orthopaedic Surgery
- American Board of Pediatrics
 - American Board of Psychiatry and Neurology
 - American Board of Radiology
 - American Board of Urology
- 1936** American Board of Internal Medicine
- American Board of Pathology
- 1937** American Board of Surgery
- 1940** American Board of Neurological Surgery
- 1941** American Board of Anesthesiology
- American Board of Plastic Surgery
- 1947** American Board of Physical Medicine and Rehabilitation
- 1949** American Board of Colon and Rectal Surgery
- American Board of Preventive Medicine
- 1969** American Board of Family Medicine
- 1971** American Board of Allergy and Immunology
- American Board of Nuclear Medicine
 - American Board of Thoracic Surgery
- 1979** American Board of Emergency Medicine
- 1991** American Board of Medical Genetics and Genomics

ASSOCIATE MEMBERS OF ABMS

Accreditation Council for Continuing Medical Education (ACCME) National organization that evaluates and accredits institutions and organizations offering Continuing Medical Education (CME) for physicians. accme.org.

Accreditation Council for Graduate Medical Education (ACGME) National organization that reviews and accredits graduate medical education programs (residency and fellowship), and the institutions that sponsor them, in the U.S. acgme.org.

American Hospital Association (AHA) National membership organization representing hospitals, health care networks and their patients and communities to ensure that members' perspectives and needs are heard and addressed in national health policy development, legislative and regulatory debates, and judicial matters. aha.org.

American Medical Association (AMA) National membership organization uniting physicians in the U.S. to focus on professional and public health issues. ama-assn.org.

Association of American Medical Colleges (AAMC) National membership organization serving the academic medicine community, dedicated to transforming health care through medical education, patient care, medical research, and community collaborations. aamc.org.

Council of Medical Specialty Societies (CMSS) National membership organization of medical specialty societies representing physicians board certified by ABMS providing an independent forum for discussing issues of medical education and accreditation, health care quality, and professional identity. cmss.org.

Educational Commission for Foreign Medical Graduates (ECFMG) Organization that evaluates whether international medical graduates (IMGs) are ready to enter U.S. graduate medical programs, and offers a variety of other programs for IMGs and the entities worldwide that educate, train, register/license, and employ them. ECFMG Certification is a requirement for IMGs to take Step 3 of the United States Medical Licensing Examination (USMLE) and to obtain an unrestricted license to practice medicine in the U.S. ecfm.org.

Federation of State Medical Boards (FSMB) Organization representing the 71 state medical and osteopathic regulatory boards within the U.S., its territories and the District of Columbia. FSMB promotes best practices in medical regulation and encourages uniformity in how states license and discipline physicians. It collaborates with NBME to provide the USMLE assessment. fsmb.org.

National Board of Medical Examiners (NBME) Assessment organization that, along with FSMB, co-sponsors the USMLE, which is accepted by medical licensing authorities as the standard by which to judge candidates for medical licensure. nbme.org.

Resources from the ABMS Community

This page features a sampling of informational resources from ABMS and its Associate Members covering board certification and continuing medical education (CME), and supporting physicians and health systems in providing the best health care now and into the future. See the individual [Member Board websites](#) for information about their specific programming.

ABMS Guide to Medical Specialties

The [ABMS Guide to Medical Specialties](#) provides an overview of board certification and descriptions of each specialty and subspecialty areas where certification is offered by an ABMS Member Board.

ABMS Insights Newsletter

[ABMS Insights](#) is a free quarterly e-newsletter featuring information on the latest programs, initiatives, and innovations from the ABMS Member Boards, as well as guest columnists.

AAMC Data and Reports

The [AAMC Data and Reports](#) from the Association of American Medical Colleges (AAMC) provide a compilation of current, authenticated data on important topics in academic medicine.

ACCME Annual Data Report

The [ACCME Annual Data Report](#) includes data submitted by the accredited providers within the Accreditation Council for Continuing Medical Education (ACCME) System describing their activities and overall CME programs.

ACGME Data Resource Book

The [ACGME Data Resource Book](#) from the Accreditation Council for Graduate Medical Education (ACGME) is a collection of current and historical data related to the accreditation process, including the size, scope, and distribution of graduate medical education (GME) in the U.S.

AHA Environmental Scan

The [AHA Environmental Scan](#) from the American Hospital Association (AHA) details data and trends in the areas of access, health, innovation, affordability and value, and patient partnership that have implications for the health care field for the coming year and beyond.

AMA Council on Medical Education Reports

The [American Medical Association Council on Medical Education Reports](#) provide updates on some of the changes related to certification and licensure that have occurred as a result of the American Medical Association's (AMA) continued advocacy for physicians at the national level with ABMS, FSMB, and other stakeholders.

ECFMG Fact Card

The [ECFMG Fact Card](#) from the Educational Commission for Foreign Medical Graduates (ECFMG) provides summary annual data on international medical students and graduates pursuing ECFMG Certification, J-1 visa sponsorship, and first-year residency positions in the U.S.

FSMB Census of Actively Licensed Physicians in the United States

The [FSMB Census of Actively Licensed Physicians in the United States](#) from the Federation of State Medical Boards (FSMB) is a biennial comprehensive compilation of physician license and demographic information.
