

ABMS Member Board Focused Practice Designation

The focused practice designation, approved by ABMS in March 2017, recognizes the value that physicians who focus some or all their practice within a specific area of a specialty and/or subspecialty can provide to improving health care. Focused practice designation enables the ABMS Member Boards to set standards for, assess, and acknowledge additional expertise that physicians gain through clinical experience, and may include formal training.

ABMS MEMBER BOARDS WITH APPROVED FOCUSED PRACTICE DESIGNATIONS				
American Board	Area of Focused Practice	Active Certification Requirement	Year Approved by ABMS	First Issued
